Paste the appropriate copyright/license statement here. ACM now supports three different publication options:

- ACM copyright: ACM holds the copyright on the work. This is the historical approach.
- License: The author(s) retain copyright, but ACM receives an exclusive publication license.
- Open Access: The author(s) wish to pay for the work to be open access. The additional fee must be paid to ACM.

This text field is large enough to hold the appropriate release statement assuming it is single-spaced in Verdana 7 point font. Please do not change the size of this text box.

Each submission will be assigned a unique DOI string to be included here.

Abstract

In this sample document we describe formatting requirements for AfriCHI Pictorials. It has been slightly adapted according to the guidelines for page use for references by CHI'16 and for clarity for AfriCHI'16.

Please review this document and read the detailed explanations for submission available at www.africhi.net even if you have submitted to SIGCHI conferences before. In the Pictorial format, abstracts are required and should not exceed 100 words.

Authors Keywords

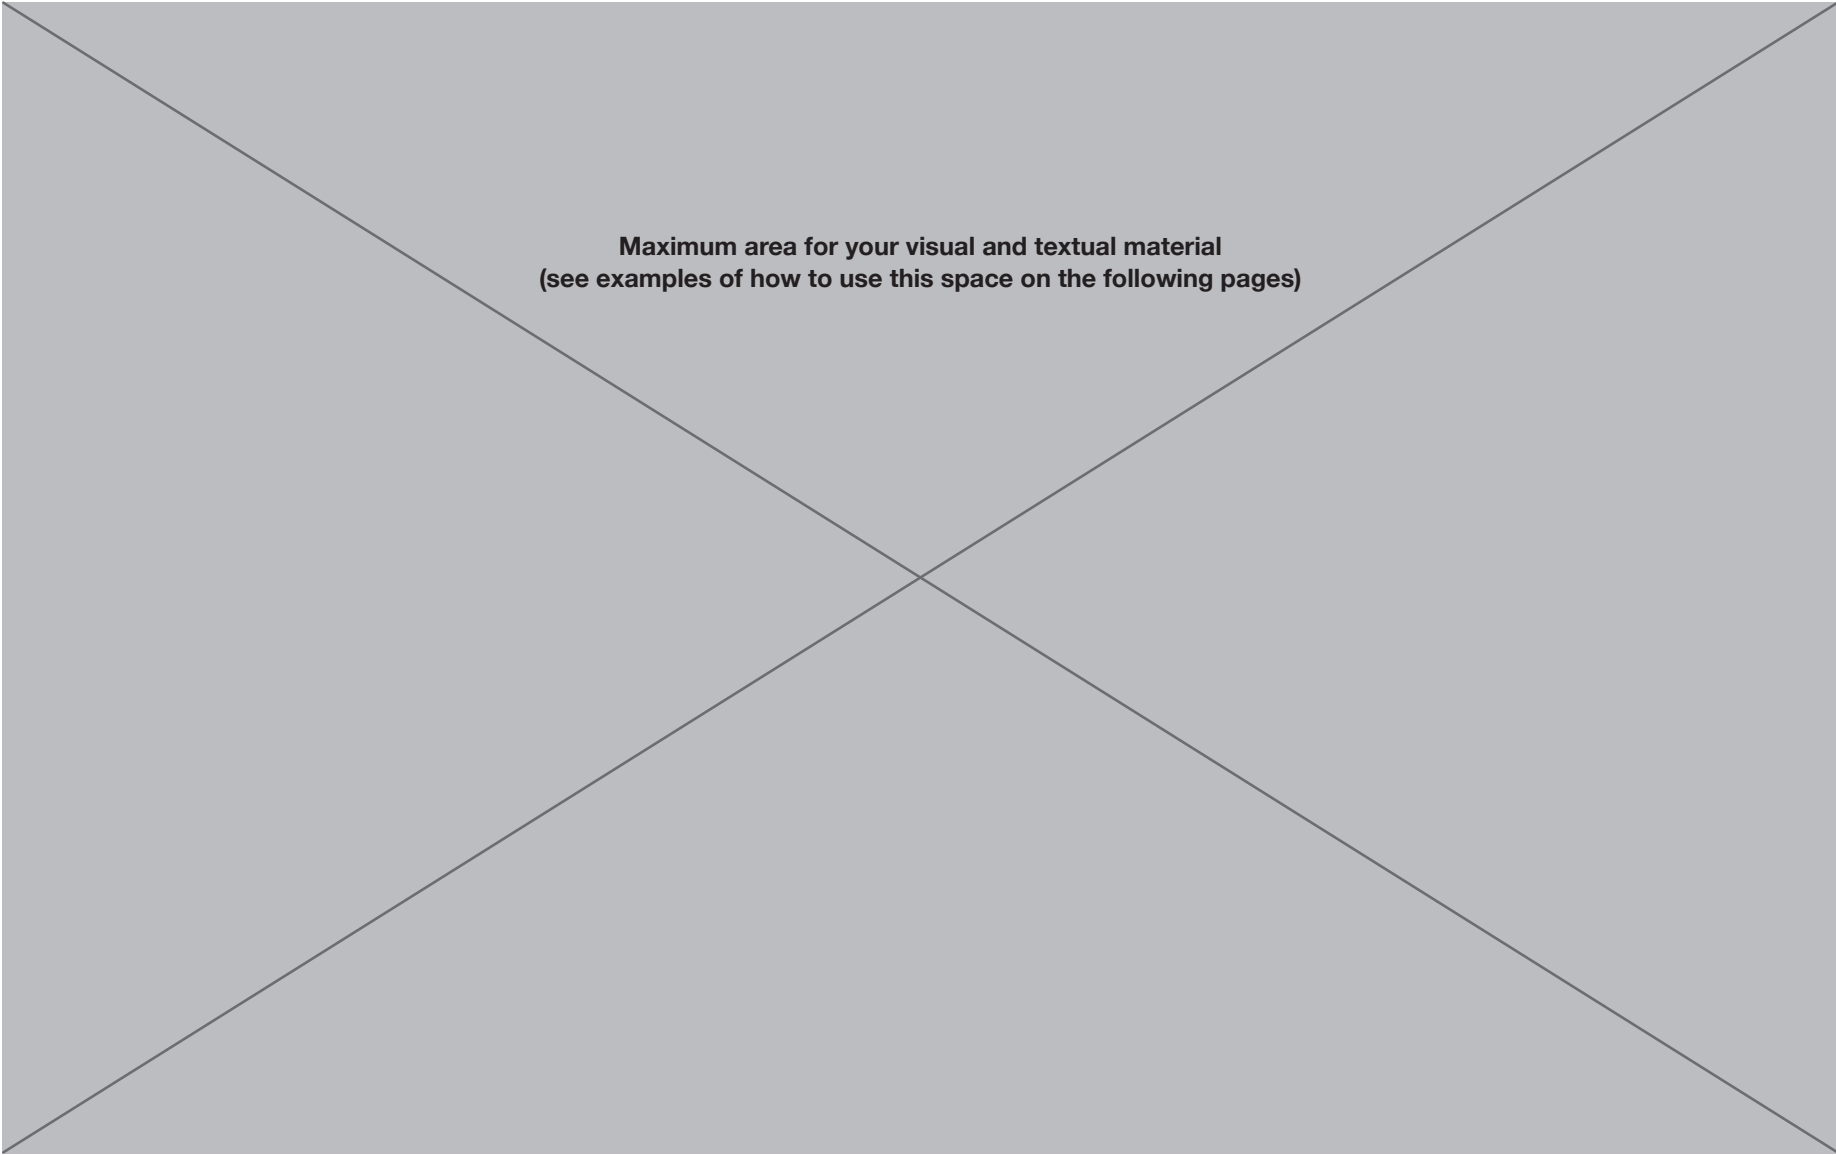

Authors' choice; of terms; separated; by semi-colons
Mandatory section to be included in your final version.

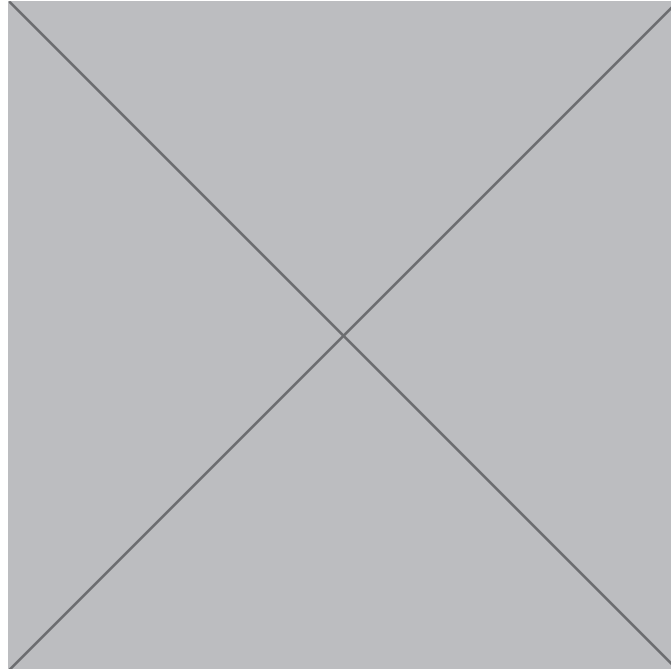

ACM Classification Keywords

H.5.m. Information interfaces and presentation (e.g., HCI): Miscellaneous. Required. See <http://www.acm.org/about/class/1998/> for more information and the full list of ACM classifiers and descriptors.

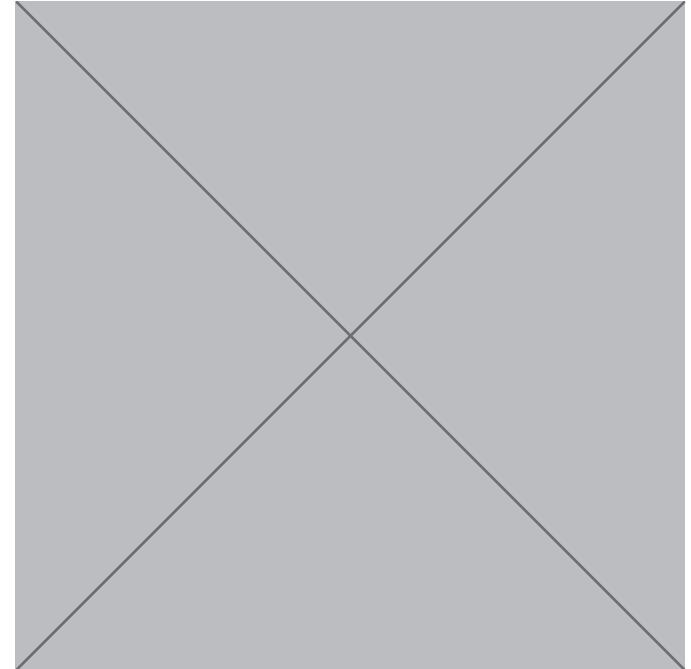

Introduction

This format is to be used for submissions that are published in the conference publications. We wish to give this volume a consistent, high-quality appearance. Therefore we ask that authors follow some simple guidelines. In essence, you should format your paper exactly like this document. The easiest way to do this is replace the content of this template with your own material. The maximum length of Pictorials for AfriCHI'16 is 4 pages.
